

## Section 1: Management

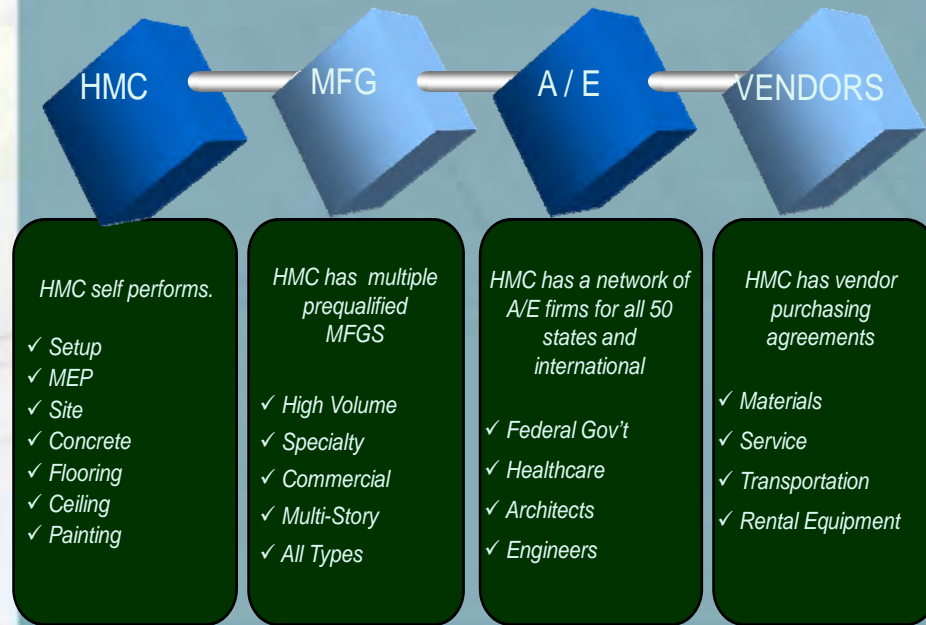

### HMC's "Proven People" Advantages

HUNTER MODULAR CONSTRUCTION (HMC) will provide project leadership with an established programmatic organization wherein lines of authority and responsibility are clearly drawn and maintained. HMC has a "proven people" advantage distinguishing our organization from most competitors. The advantages are:

- 50+% of HMC Employees have 7+ years with the Company
- Our experienced employees are professionals in modular building construction. They have the skills, tools, and experience to execute large, multi-site, complex modular building construction projects.
- 200+ HMC Employees Provide In-house Capabilities for a relatively small firm, we have big business capabilities and have extensive in-house resources including project management, estimating, site management and self-performing construction personnel.
- 80+% of HMC Revenue are from Federal Agencies or Federally Funded Projects.
- We bring the advantage of on site management teams working together for an average of 17 years on similar federal modular construction projects. With this experience, this project can expect to be completed on-time, on-budget, within the specifications and without the interruption of safety or other issues.

# Why Hunter Modular?
